2013	increased risk of diabetes in women taking Lipitor	Plaintiff	I have been retained as a medical expert on behalf of plaintiffs in a mass tort law suit against Pfizer. The basis of the suit is the increased risk of developing diabetes in women who were put on Lipitor for primary prevention. I have completed medical records reviews and am writing a long brief on behalf of the plaintiffs.	None (\$0)

ACC and Disclosures

ACC is committed to ensuring balance, independence, objectivity, and scientific rigor in their governance, programmatic, educational, chapter, and other activities. Fulfilling this commitment depends on member and public confidence in the College's integrity and objectivity. The College recognizes that the activities of College members in their practice, research, and other volunteer and private endeavors could lead to the development of conflicts of interest. Therefore, the College has established a Disclosure Policy and conflict of interest management process as appropriate. All members involved in College governance, including all committees and task forces, programmatic, certified educational, chapter, and other activities must provide complete, timely, accurate, and signed disclosure statements. Compliance with this process is mandatory for participation in College activities.
