**ACC and Disclosures**  
ACC is committed to ensuring balance, independence, objectivity, and scientific rigor in their governance, programmatic, educational, chapter, and other activities. Fulfilling this commitment often involves the disclosure of potential conflicts of interest to ensure that allACC members and staff act in the best interest of our members and the general public. This includes the disclosure of financial or other relationships, research or other professional activities, or any other activity that could reasonably be perceived as affecting the objectivity of an individual’s work on behalf of ACC. This disclosure policy is intended to encourage full transparency and to ensure that the ACC can act in a manner that is free of conflicts of interest.
commitment depends on member and public confidence in the College’s integrity and objectivity. The College recognizes that the activities of College members in their practice, research, and other volunteer and private endeavors could lead to the development of conflicts of interest. Therefore, the College has established a Disclosure Policy and conflict of interest management process as appropriate. All members involved in College governance, including all committees and task forces, programmatic, certified educational, chapter, and other activities must provide complete, timely, accurate, and signed disclosure statements. Compliance with this process is mandatory for participation in College activities.
