ACC and Disclosures
ACC is committed to ensuring balance, independence, objectivity, and scientific rigor in their governance, programmatic, educational, chapter, and other activities. Fulfilling this commitment depends on member and public confidence in the College’s integrity and objectivity. The College recognizes that the activities of College members in their practice, research, and service will result in financial relationships with organizations or activities that might be perceived as potentially leading to a conflict of interest or bias. The College has established policies and procedures to ensure that members disclose and discontinue any potential conflicts of interest that may arise in the course of their activities. The College is committed to transparency and will make available public disclosure statements for all members.
research, and other volunteer and private endeavors could lead to the development of conflicts of interest. Therefore, the College has established a Disclosure Policy and conflict of interest management process as appropriate. All members involved in College governance, including all committees and task forces, programmatic, certified educational, chapter, and other activities must provide complete, timely, accurate, and signed disclosure statements. Compliance with this process is mandatory for participation in College activities.
